It’s one thing to imagine a better world. It’s another to deliver it.
AECOM was built to do just that

With a deep and experienced global team, we design and deliver infrastructure and solutions that unlock opportunities for clients and communities, protect our environment and improve people’s lives. How would you like to be part of a multinational company that:

- Had revenues of USD $18.2bn during fiscal year 2017
- Has ranked #1 in Engineering News Record’s “Top 500 Design Firms” for eight consecutive years
- Has been named one of Fortune magazine’s “World’s Most Admired Companies” for four consecutive years
Why work for us?

AECOM is involved with some of the most iconic structures in the Middle East such as Etihad Towers, Yas Mall, Cleveland Clinic Abu Dhabi and Forte Towers (Dubai Opera District). We have had a strong presence in the region for over 50 years with offices located in Abu Dhabi, Al Ain, Bahrain, Dhahran, Dubai, Doha, Jeddah, Muscat and Riyadh. We pride ourselves on partnering with clients throughout the project lifecycle.

You could be part of this team that:
- Contributes to some of the world’s most exciting projects
- Helps improve people’s lives
- Transforms communities
- Delivers technical excellence
- Makes sustainability a priority
- Is inspired and innovative
- Is fully supported in career development
- Has access to explore global opportunities
Due to continued growth across the Middle East, AECOM is looking to expand and enhance our technical and management teams across all areas including: Structural Engineering, MEP, Architecture, Project Management, Transport, Water and Construction Services businesses.
