

## Your access to premier, fully integrated infrastructure services

AECOM project teams fuse top technical expertise around the world with deep local experience, to design and deliver infrastructure, utilities and facilities that meet the needs of our clients and the communities.

Across all components of the in-project cycle — design, build, finance and operate — AECOM is uniquely positioned to deliver a differentiated service, working globally and delivering locally. Our engineers, planners, architects, landscape architects, environmental specialists, economists, scientists, consultants and construction specialists as well as cost, construction, project and program managers are all dedicated to finding the most innovative and appropriate solutions, and to achieve the most successful outcome for our clients.

### About AECOM

AECOM is built to deliver a better world. We design, build, finance and operate critical infrastructure assets for governments, businesses and organizations. As a fully integrated firm, we connect knowledge and experience across our global network of experts to help clients solve their most complex challenges. From high-performance buildings and infrastructure, to resilient communities and environments, to stable and secure nations, our work is transformative, differentiated and vital. A *Fortune 500* firm, AECOM had revenue of approximately \$20.2 billion during fiscal year 2018. See how we deliver what others can only imagine at [aeom.com](http://aeom.com) and [@AECOM](https://twitter.com/AECOM).

AECOM in Malaysia

The upgrade and creation of key infrastructure is pivotal to Malaysia’s continued progress and AECOM is privileged to have played a key role in these over the past 40 years.

We believe in working hand in hand with our local clients and partners in creating valuable space and innovative solutions that make daily life more convenient and enjoyable through sharing our worldwide experience in delivering complex projects and livability-enhancing developments. We bring the best people and technology coupled with the most sensible approaches to extract the best value out of every project that we are involved in, while being sensitive to the environment and the ever-evolving needs of the community.

Our team of close to 800 professionals located in Kuala Lumpur, Johor Bahru, Penang and Kuching are well-positioned to support public and private clients to implement transformative projects for Malaysia. From enhancing mobility through the delivery of the country’s first ever mass rapid transit system to reinvigorating the public realm via projects like the River of Life, as well as creating landmark institutions and iconic buildings, AECOM offers end-to-end integrated services to a range of projects that allow clients to work with a one-stop solutions provider.

We are passionate in our drive to make projects work for its communities. Whether they are transport infrastructure, residential buildings, commercial space, water systems, environmental management, health institutions, educational facilities or industrial complexes, our role is to ensure that our clients and end-users benefit from our work.

A selection of our projects

Klang Valley MRT, Kuala Lumpur

**Client:**  
MMC Gamuda KVMRT (PDP) Sdn Bhd  
**Services:**  
Multidisciplinary engineering design, associated major site supervision works for underground and elevated sections, cost consulting

**Port of Tanjung Pelepas, Johor**  
**Client:**  
Pelabuhan Tanjung Pelepas Sdn Bhd  
**Services:**  
Master planning, operating systems, hydraulic analysis, environmental planning, stimulation, consultancy and construction supervision services for the detailed survey, engineering design and supervision of Wharves

IKEA Penang

**Client:**  
Ikano Pte Ltd (part of IKANO Asia)  
**Services:**  
Full project management services of the design, procurement of contractors/vendors and construction

River of Life, Kuala Lumpur

**Client:**  
Dewan Bandaraya Kuala Lumpur (DBKL)  
**Services:**  
River master planning and beautification, strategic framework for urban and landscape design guidelines, programme management/construction management

**AirAsia Headquarters, Kuala Lumpur**  
**Client:**  
AirAsia  
**Services:**  
Mechanical and electrical, environmental sustainable design, fire engineering, cost management

Desa Desaru Hotel, Johor

**Client:**  
Desaru Estate Sdn Bhd  
**Services:**  
Project management

Penang Bridge 2

**Client:**  
China Harbour Engineering Co. (CHEC)  
**Services:**  
Engineering, contractor’s design, construction engineering, construction supervision

**Kuala Lumpur Convention Centre**  
**Client:**  
Kuala Lumpur Convention Centre Sdn Bhd  
**Services:**  
Cost management

Ramsar Wetlands, Johor

**Client:**  
Khazanah Nasional Berhad  
**Services:**  
Design + planning, environmental & ecological planning, tourism & hospitality, building engineering
