

Take advantage of AECOM's GSA contracts...

It's easy to work with us through GSA to get access the professional services you need. Our contracts and schedules offer approved terms & conditions and established rates for environmental, engineering, construction management services, complex professional services, IT and cyber security, and more! Contact AECOM today to learn more about the opportunities available through our GSA vehicles.

GSA Professional Services Schedule (PSS) (00CORP) (GS-00F-188CA, GS-00F-046CA, and GS-23F-0146R)

The GSA Schedules program serves as the catalyst for billions of dollars in Federal spending, helping to meet procurement needs for eligible users, including all branches of Federal government through applicable programs. These contracts allow us to provide a broad scope of services to our government clients and also serve as a procurement vehicle to access our services anytime through the GSA eBuy RFQ/RFP portal. Customers can procure a vast array of supplies and services (e.g., technical services, logistics, IT, and others) directly from AECOM.

GS-00F-188CA (00CORP): (URS Group, Inc., DUNS 124645677)

GS-23F-0146R (PES) (AECOM N&E Technical Services LLC, DUNS 968430645)

- SIN 871-1 Strategic Planning for Technical Programs
- SIN 871-2 Concept Development & Requirements Analysis
- SIN 871-3 System Design, Engineering & Integration
- SIN 871-4 Testing & Evaluation
- SIN 871-5 Integrated Logistics Support

Federal clients can sole-source a GSA order if it is below the micro-purchase threshold of \$2,500, with documentation of the circumstances if it is between \$2,500 and the simplified acquisition threshold of \$150,000, or with a limited-sources justification if it exceeds the \$150,000 threshold. An order exceeding the \$150,000 threshold requires that you distribute an RFQ/RFP to multiple schedule contractors (typically 3) as practicable usually through the GSA eBuy System-in order to receive at least three competitive quotes on the RFQ/RFP.

The steps to using a GSA Schedule are:

- 1) Develop a scope of work and transmit it to your contracting support staff. (If you do not know who that is, let us know and we will assist you)
- 2) The contracting staff prepares an RFP and transmits it to AECOM and at least 2 other GSA Schedule holders through eBuy.
- 3) AECOM responds to your RFP with a proposal.
- 4) Technical and contracting staff review our proposal, and if necessary, clarify or negotiation with us. (Since GSA schedule have set labor rates and terms and conditions, this process is quick and simple.
- 5) Contracting staff issues a task order.
- 6) AECOM completes the order.

GSA Facilities Maintenance and Management Schedule (03FAC): GS-21F-020BA (URS Group, Inc., DUNS 124252052), GS-21F-0053U (URS Federal Technical Services, Inc., DUNS 083070925), and GS-06F-0009R (AECOM Special Missions Services, Inc., DUNS 608179008)

Engineering support, energy management and consulting, operations and maintenance, planning, renewable energy, and building commissioning.

Complete facilities maintenance and management to include daily operations and maintenance, facility planning and development services, energy and sustainability services, program planning and policy development, energy program support, energy auditing, renewable energy, and building commissioning.

- **SIN 871 205:** Energy Program Support Services
- **SIN 871 206:** Building Commissioning Services
- **SIN 871 207:** Energy Auditing Services
- **SIN 871 209:** Innovations in Renewable Energy
- **SIN 871 211:** Energy Consulting Services

OASIS One Acquisition Solution for Integrated Services Pool 1 GS00Q14OADU140 (URS Federal Services, Inc., DUNS 961530545)

OASIS is able to provide both commercial and non-commercial services. The core disciplines of the contract include program management services, management consulting services, logistics services, engineering services, scientific services, and financial services.

OASIS is GSA's next generation contract vehicle for complex professional services. The vehicle is designed to address agencies' needs for professional service requirements that:

- Span multiple professional service disciplines;
 - Contain significant IT components, but are not IT requirements in and of themselves;
 - Contain ancillary support components commonly referred to as ODCs;
 - Require flexibility for all contract types at the task order level including cost reimbursement; and
 - Any one or combination of all of the above.
- Classified

NAICS Codes: 541330, 541330, 541360, 541370, 541380, 541611, 541612, 541613, 541614, 541618, 541620, 541690, 541810, 541820, 541830, 541840, 541850, 541860, 541870, 541890, 541910, 541990

Descriptions: Engineering Services, Surveying and Mapping (also includes Geophysical), Testing Laboratories, Administrative Management and General Management Consulting Services, HR, Marketing Consulting, Process, Physical Distribution, and Logistics Consulting, and more

Buildings Maintenance and Operations (BMO) Phase II: 47QSHA18D0005 (AECOM Technical Services, Inc., DUNS 003184462)

Reduced administrative costs, more accurate price comparisons, improved visibility on spending and pricing, and more flexibility with task orders. AECOM was awarded a contract in all 5 possible zones and can mobilize quickly and efficiently to ensure a rapid transition to full operation.

Building Maintenance and Operations (BMO) gives government agencies a more streamlined way of acquiring facility maintenance and operations services, including electrical maintenance, janitorial, landscaping, fire alarm and suppression system maintenance, commissioning, and more.

- **Zone 2:** CT, ME, MA, NH, RI, VT
- **Zone 3:** FL, GA, NC, SC
- **Zone 4:** OK, TX
- **Zone 5:** CA, NV
- **Zone 6:** IL, IA, KS, MO, NE

Alliant (GS00Q09BGD0012) and Alliant II (47QTCK18D0025) (URS Federal Services, Inc., DUNS 961530545)

Premier enterprise Government Wide Acquisition Contract (GWAC) that provides flexible access to customize IT solutions worldwide.

Alliant can be used by any Government agency looking for access to IT solutions such as systems design, software engineering, information assurance, and enterprise architecture solutions. Includes IT infrastructure, application services, management services, ancillary support, and cyber security.
