

Designing a comprehensive scope of work using the right contracting mechanisms during planning promotes understanding, translating to lower cost and fewer change orders.

AECOM has partnered with industry for more than a century. As a service provider for the full project lifecycle across many industrial supply chains, we have established long-term relationships with most of the world's largest companies providing demolition, decommissioning, decontamination, and asset recovery to:

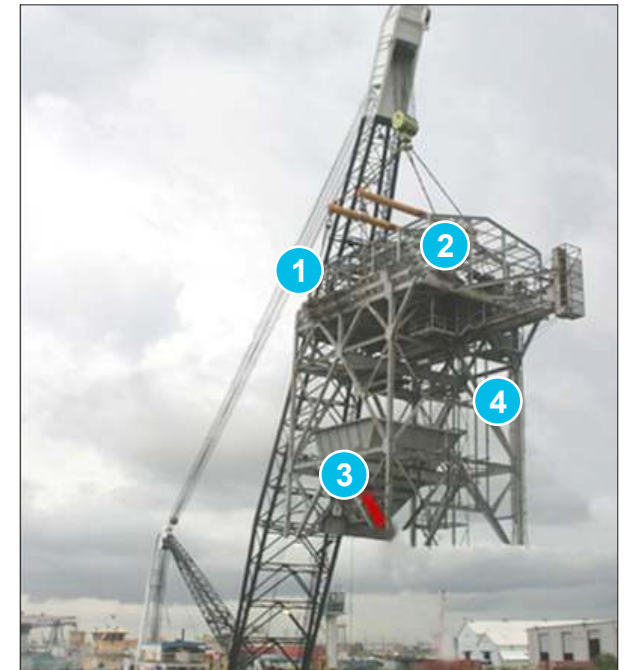

- Power Plants
- Pharmaceutical Facilities
- Mines
- Pulp, Paper and Steel Mills
- Petrochemical and other processing plants
- Pipelines
- Service stations and fuel storage terminals
- Logistics, lubricants, and transfer facilities
- Refineries
- Gas Plants
- Industrial Complexes

DISMANTLING PROJECT

Are you getting full credit for your salvage?

1. Process Equipment Sales

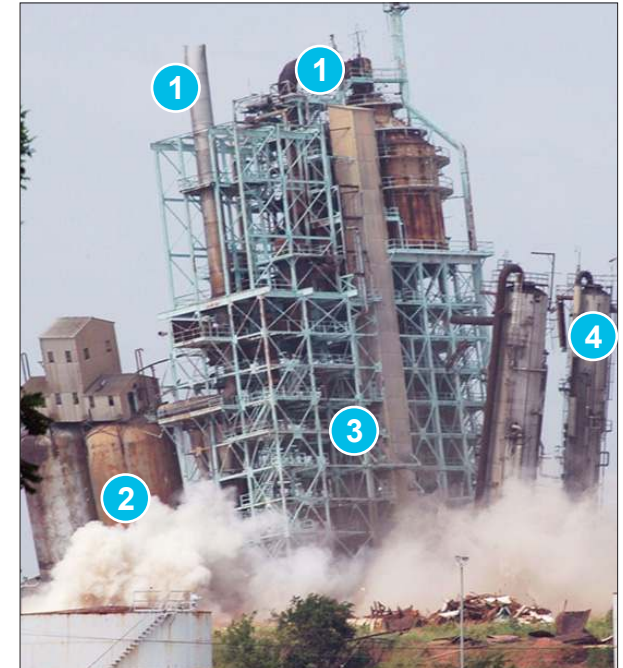

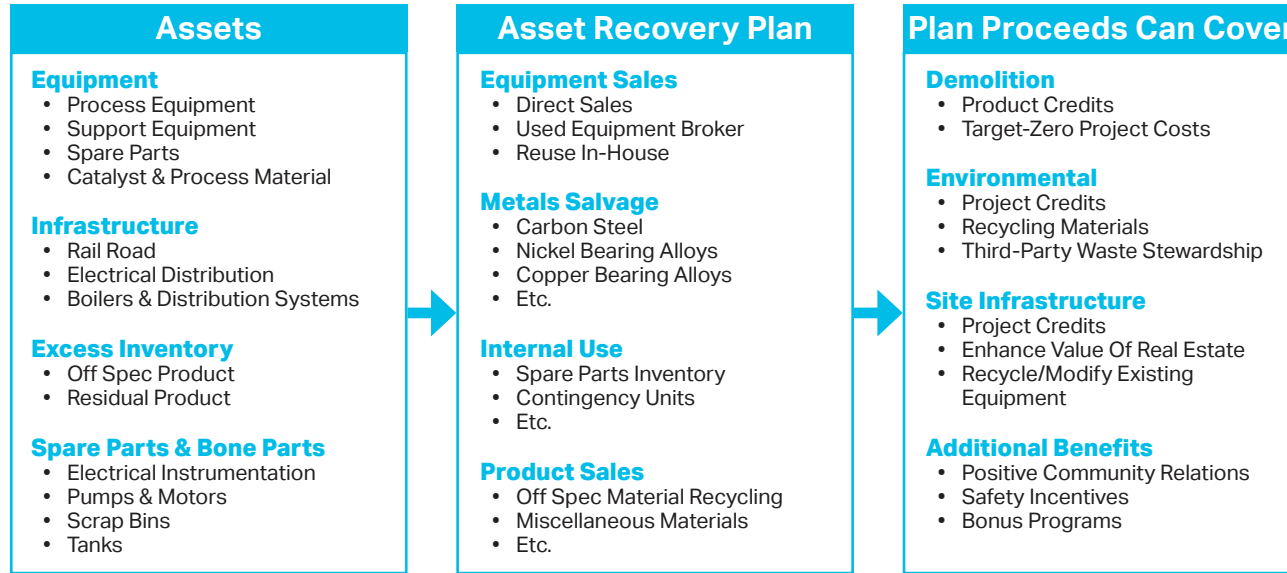

ASSET RECOVERY

Are you getting full credit for your salvage?

1. Steel
2. Electric Motors
3. Resalable Equipment
4. Copper

Recognizing and maximizing asset value lowers cost.

Benefits of an Asset Recovery Plan

DEMOLITION PROJECT

Are you getting full credit for your salvage?

1. Stainless Steel
2. #1 Heavy Melting Steel
3. Ferrous Plate and Structural
4. Stainless Internals

Facility Closure/Asset Recovery Services Offered by AECOM

- PM/CM
- Pre-planning/Scope of Work Development
- Procurement Support
- Health and Safety Planning
- Demolition
- Dismantling
