

Whatever the challenge, we're ready

AECOM's global network of experts work with clients, communities, and colleagues to develop and implement innovative solutions to the world's most complex challenges.

With 87,000 employees serving clients across more than 150 countries, we are positioned with a unique cadre of experts to deliver fully integrated services no matter the challenge or geography.

Over the past 100 years we've partnered with more than 50 U.S. Federal agencies on defense, national security, energy, intelligence, and international development missions. We understand the mandates and demands placed on Federal project managers. This knowledge informs our approach to providing innovative, cost-effective solutions that help our clients achieve mission success.

Don't just imagine the next generation of innovation. See it for yourself. Visit aecom.com/government

Representative Federal Clients

- Department of Homeland Security (DHS)
- Department of Energy (DOE)
- Department of Transportation (DOT)
- Federal Emergency Management Agency (FEMA)
- General Services Administration (GSA)
- Intelligence Community
- Missile Defense Agency (MDA)
- National Aeronautics & Space Administration (NASA)
- National Guard Bureau
- Naval Facilities Engineering Command (NAVFAC)
- Space and Naval Warfare Systems Command (SPAWAR)
- U.S. Agency for International Development (USAID)
- U.S. Air Force
- U.S. Army Corps of Engineers (USACE)
- U.S. Coast Guard
- U.S. Department of State (DOS)
- U.S. Department of Veterans Affairs (VA)
- U.S. Environmental Protection Agency
- U.S. Marine Corps (USMC)
- Washington Headquarters Services (WHS)

Recognition and Awards

2019 Engineering News-Record Rankings

- #1 General Building
- #1 Transportation
- #1 Program Management
- #2 Design Firm
- #2 International Markets
- #2 Hazardous Waste
- #2 Water
- #3 Power

Industry Distinctions

- A *Fortune* 500 company
- A *Fortune* "World's Most Admired Company" (2019)
- Top 10 Military Friendly® Company (2020)
- No. 1 Military Friendly® Supplier Diversity Program (2019)
- *Construction Dive* Construction Company of The Year (2018)

AECOM's Integrated Services

Facility Planning, Design, and Engineering

AECOM offers solutions to the toughest management and design challenges, innovative designs for new facilities and renovations for clients around the world. AECOM provides integrated, sustainable delivery solutions including master planning, economic analysis, architecture, interiors, landscape design, building engineering, civil/site engineering, program management and construction management.

- Administration and headquarters
- Barracks
- Classified facilities/SCIFs
- Command and control centers
- Educational and training facilities
- Embassies and consulates
- Intelligence communities
- Medical and laboratories
- Missile defense
- Spatial data solutions

Energy

AECOM provides energy auditing, design, engineering and construction for military installations, government facilities, healthcare providers, and utilities. We provide energy analysis and planning, environmental management, design and engineering, and asset management. We advise clients on how to best implement initiatives, including project delivery alternatives, sustainable considerations, and alternative energy sources in their facilities and daily operations.

- Alternative delivery
- Asset management
- Cogeneration
- Energy efficiency renovation / construction
- Energy master planning
- Energy savings performance contracts
- Fuel system design and closure
- Sustainability consulting and LEED®
- Renewable energy

Environmental

AECOM's environmental specialists offer expertise in air quality, impact assessment and permitting, natural and cultural resource studies, environmental health and safety management, remediation, military munitions, construction and site restoration, specialty and emerging technologies, waste services, and water resources. At DOD and Superfund sites, AECOM is investigating contaminated soil and groundwater, designing remedies and implementing cleanup and restoration.

- Compliance and pollution prevention
- Environmental restoration and remediation
- Hazardous, toxic, and radiological waste (HTRW)
- Human health and ecological risk assessment
- Military munitions response
- Natural and cultural resources
- NEPA documentation / permitting
- Site cleanup and closure
- Unexploded Ordnance (UXO)

Infrastructure

AECOM experts play a significant role in building and maintaining resilient infrastructure, including program and construction management. We plan, design, construct, and manage a wide range of projects across civil works, transportation, water, power, and cyber sectors, including military facilities and sites. We create sustainable, integrated water systems including flood control structures and are well-versed in relevant stakeholder issues.

- Aviation
- Civil works
- Coastal and marine services
- Cyber
- Flood studies / risk management
- Highways and bridges
- Ports and marine
- Power
- Transit and rail
- Water and wastewater treatment

Construction

AECOM transforms design concepts – no matter how large or complex – into tangible structures by using a comprehensive, integrated approach. From critical water facilities and transportation hubs to iconic buildings that light up the skylines, our portfolio of work spans across all areas of defense, security, healthcare and infrastructure in the built environment.

- Aviation
- Barracks and training centers
- Bridges, roads, and dams
- Disaster response/reconstruction
- Embassies and consulates
- Healthcare facilities and laboratories
- Infrastructure and utilities
- MILCON
- Missile defense
- Ports, piers, and waterfronts
