

Imagine the Federal campus of the future.

AECOM has designed and constructed innovative facilities and infrastructure for government clients around the world. From state-of-the-art headquarters and military installations to complex, resilient infrastructure, AECOM creates spaces that support our clients' most critical missions. We deploy industry-leading innovations and best practices to successfully deliver a wide range of project types, including planning, design, buildings, energy, environmental, civil works, transportation, and water.

AECOM planners provide the full spectrum of services for our government clients, from policy and strategy through site analysis and project execution.

- Asset management
- Economics
- Environmental planning
- Facility requirements analysis and utilization studies
- Master planning and installation/site planning
- Programming and charrettes
- Public and stakeholder involvement
- Real property management systems
- Spatial data solutions/Geographic Information Systems (GIS)
- Sustainability and energy studies
- Utility infrastructure studies and capacity analysis
- Workplace strategy

Don't just imagine the next generation of planning. See it for yourself. Visit [aecom.com/government](https://www.aecom.com/government)

#2

engineering design firm (2019 *ENR* magazine)

150+

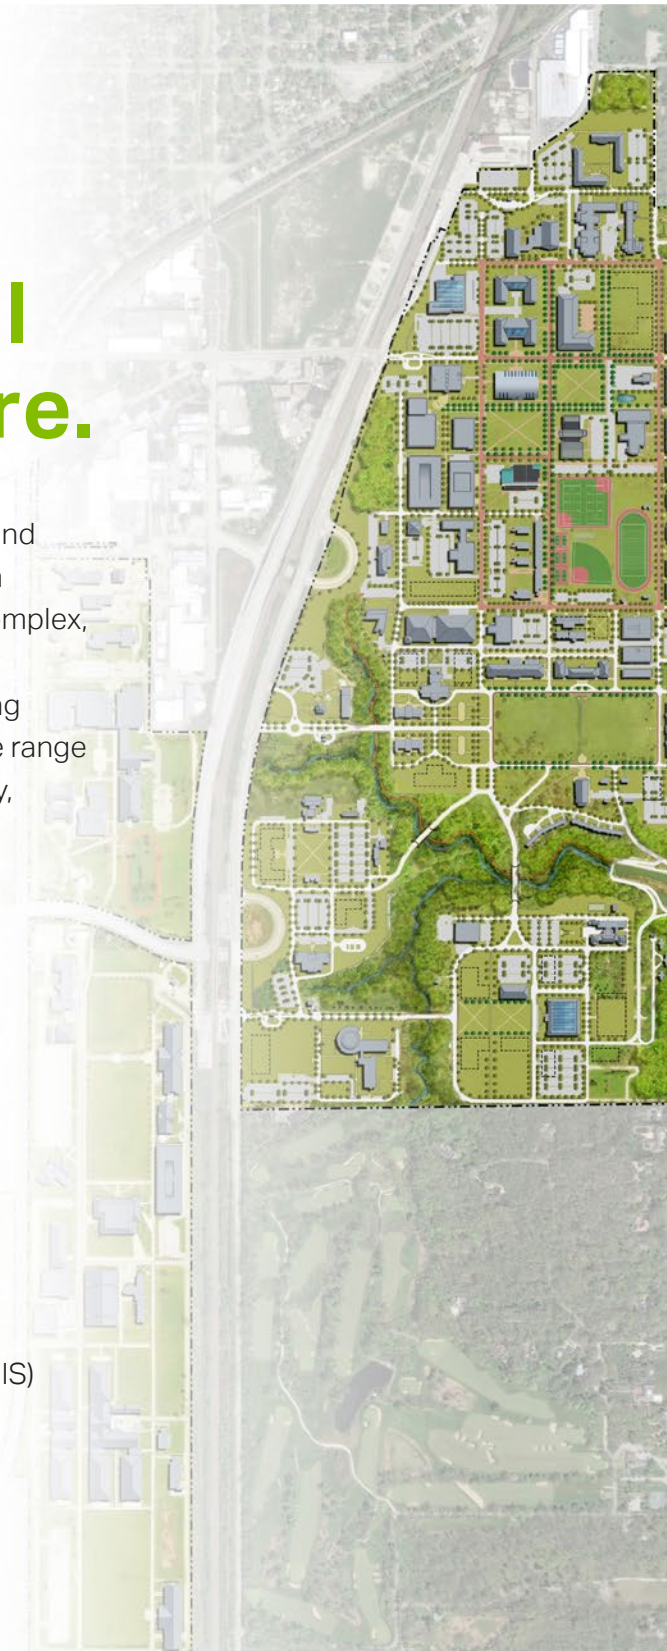

countries and 87,000 employees worldwide

5

consecutive years as a *Fortune* "World's Most Admired Company"

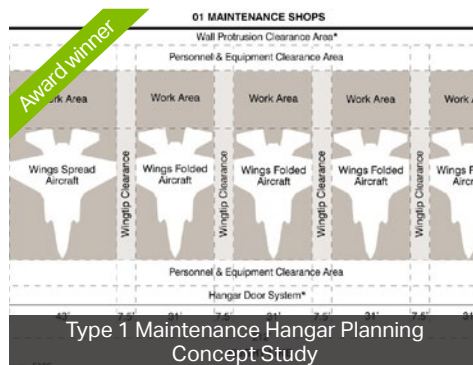

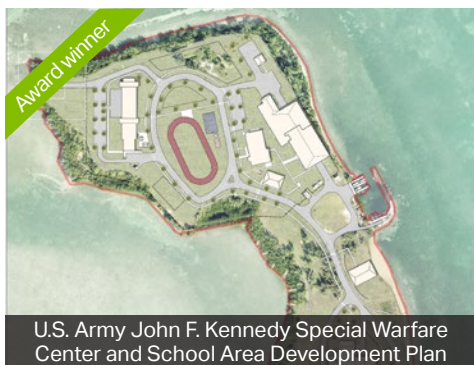

100+

years delivering Federal projects

Visionary projects.

Innovative delivery.
