

AECOM's EHS management practice delivers strategic-focused, cost-effective, and reliable EHS consulting services to clients around the world, such as:

- Integrating EHS management activities into clients' strategic business planning efforts to capture financial, competitive, and operational benefits
- Supporting EHS compliance assurance processes to achieve reduced regulatory liability
- Presenting opportunities instead of regulatory constraints, and identifying practical, sustainable solutions
- Lowering the impact of EHS costs on the bottom line
- Providing our clients' top management with the information they need to proactively manage EHS responsibilities and exposures while improving financial performance
