

Whatever the challenge, we're ready

AECOM's global network of experts work with clients, communities, and colleagues to develop and implement innovative solutions to the world's most complex challenges.

Over the past 100 years we've partnered with more than 50 U.S. Federal agencies on defense, disaster response, national security, energy, intelligence, and international development missions. We understand the mandates and demands placed on Federal project teams, which informs our approach to providing innovative, cost-effective solutions that help our clients achieve mission success.

With 47,000 employees across all seven continents, we are positioned to deliver fully integrated services no matter the challenge or geography.

Don't just imagine the next generation of innovation. See it for yourself. Visit aecom.com/government

Representative Federal Clients

- Department of Homeland Security (DHS)
- Department of Energy (DOE)
- Department of Transportation (DOT)
- Federal Emergency Management Agency (FEMA)
- General Services Administration (GSA)
- Intelligence Community
- Missile Defense Agency (MDA)
- National Aeronautics & Space Administration (NASA)
- National Guard Bureau (NGB)
- Naval Facilities Engineering Command (NAVFAC)
- Space and Naval Warfare Systems Command (SPAWAR)
- U.S. Agency for International Development (USAID)
- U.S. Air Force (USAF)
- U.S. Army Corps of Engineers (USACE)
- U.S. Coast Guard (USCG)
- U.S. Department of State (DOS)
- U.S. Department of Veterans Affairs (VA)
- U.S. Environmental Protection Agency (USEPA)
- U.S. Marine Corps (USMC)
- Washington Headquarters Services (WHS)

Recognition and Awards

2021 Engineering News-Record Rankings

- #1 General Building
- #1 Transportation
- #1 International Markets
- #2 Global Design Firm
- #2 Hazardous Waste
- #2 Water
- #3 Sewer & Waste

Industry Distinctions

- Fortune 500 firm
- Military Friendly® Company (2021)
- No. 2 Military Friendly® Supplier Diversity Program (2021)
- A *Fortune* "World's Most Admired Company" (2021)
- SAME Industry Large Business Award for Outstanding Support to Federal Small Business Programs (2019)
- SAME Industry Small Business Advocate Award Winner (2018)
- *Construction Dive* Construction Company of The Year (2018)

Proven Delivery for Mission Success

Infrastructure and Facilities

AECOM has designed and constructed innovative facilities and infrastructure for government clients around the world. From state-of-the-art headquarters and military installations to complex, resilient infrastructure, AECOM creates spaces that support our clients' most critical missions. AECOM delivers integrated, sustainable solutions, including planning, studies, design, engineering, program management and construction management.

- Aviation / bridges / ports
- Buildings
- Classified and secure facilities
- Cyber
- Energy
- Intelligence communities
- Missile defense
- Ports and marine
- Spatial data solutions
- Water

Energy

We are proud to be on the forefront of planning and designing efficient, resilient power and energy infrastructure. AECOM provides energy auditing, design, engineering and construction for military installations, government facilities, healthcare providers, and utilities. We advise clients on implementing energy initiatives, including project delivery alternatives, sustainable considerations, and alternative and renewable energy sources in their facilities and daily operations.

- Alternative delivery
- Asset management
- Energy efficiency
- Energy master planning
- Energy savings performance contracts
- Fuel system design and closure
- Renewable energy
- Siting and permitting
- Smart cities and microgrids

Environment

AECOM's environmental specialists offer expertise in impact assessments and permitting, remediation, air quality, water resources, natural and cultural resource studies, environmental health and safety management, emerging technologies, military munitions, construction and site restoration, and waste services. At DOD and Superfund sites, AECOM is investigating contaminated soil and groundwater, designing remedies and implementing cleanup and restoration.

- Compliance and pollution prevention
- Environmental restoration and remediation
- Hazardous, toxic, and radiological waste (HTRW)
- Military munitions response
- Natural and cultural resources
- NEPA documentation / permitting
- Pandemic response
- Per- and Polyfluoroalkyl Substances (PFAS)
- Site cleanup and closure
- Unexploded Ordnance (UXO)

Disaster Resilience

AECOM provides comprehensive disaster preparedness, mitigation, response, and recovery services in partnership with federal, state, and local agencies and on the ground with local communities. As industry leaders, we've helped shape national-level frameworks for mitigation as well as recovery. Our highly trained teams have mobilized to respond to more than 400 natural and man-made disasters worldwide, including pandemics. We work to make our communities more resilient.

- Building codes and compliance
- Chemical, biological, and radiological response
- Damage assessments and inspections
- Hazard mapping and analyses
- Humanitarian missions
- Policy and regulatory frameworks
- Pandemic response
- Public and stakeholder outreach
- Risk assessments and modeling
- Training and exercises

Civil Works

AECOM provides a full suite of integrated services to design, engineer, construct, and maintain complex civil works projects, from critical flood structures that protect coastal neighborhoods to dams that improve navigation along waterways. Supporting government clients and regional agencies, we deploy innovative technologies that help transform industry expectations and deliver a broad range of civil infrastructure assets.

- Dams and levees
- Ecosystem restoration
- Environmental services
- Flood risk management
- Hydropower
- Impact assessments
- Ports and marine
- Shore protection
- Water supply

See how we deliver what others can only imagine.
