

REMEDIATION / HAZARDOUS WASTE

De-Fluoro™ PFAS Treatment Technology	Integrated Restoration and Remediation of Mercury-Contaminated Riverbanks	In Situ Wetland Remediation	In Situ Treatment of 1,4-Dioxane	Predictive Integrated Stratigraphic Modeling (PRISM)	Harmful Algae Bloom Mitigation and Prevention	DNAPL "Chemometrics"	High Concentration Explosives Remediation	Sub-Aqueous Sediment Stabilization	In-House Treatability Laboratories Support Remedial Innovation	Automated LNAPL Sensing	Reef Balls Support a Living Shoreline to Eliminate Exposure	Biooxidation for Risk-Based Management of Complex NAPLs	Chlorpyrifos Destruction in Soils
--------------------------------------	---	-----------------------------	----------------------------------	--	---	----------------------	---	------------------------------------	--	-------------------------	---	---	-----------------------------------

IMPACT ASSESSMENT

Archaeology and Cultural Heritage Predictive Modeling	OptiSite and RouteAnalyst	Unmanned Aerial Vehicles	Archaeology and Cultural Heritage (mobile) Data Capture	Advanced Visualization	Virtual Consultation Tool
---	---------------------------	--------------------------	---	------------------------	---------------------------

AIR QUALITY

Real-time Continuous Fenceline Air Monitoring System and Electronic Dashboard for Refinery Rule	Web Camera Capture of Visible Emissions for Regulatory Compliance Data Collection	Satellite Collection of Heat Release Data	Automated Backpack Enhanced Monitoring System for Real Time AQ Data Collection	Automation of Daily AQ Field Reports	Air Quality Sensors for Internet of Things (IoT)	GHG Emissions Modeling and Digitization for Airlines	Leak Detection - GHG/CO2/CH4
---	---	---	--	--------------------------------------	--	--	------------------------------

IMPACT ASSESSMENT

PlanEngage Tool for Digital Reporting	Remote Noise and Vibration Monitoring	Immersive Sound Studio	Digital Data Management	Spatial Data Science and Analytics	Next-Gen Data Capture
---------------------------------------	---------------------------------------	------------------------	-------------------------	------------------------------------	-----------------------

AIR QUALITY

Database Emissions Tracking and Emissions Reductions	Carbon Markets Communication and Offset Gate Key
--	--

CLIMATE CHANGE SOLUTIONS — from Mitigation to Adaptation

Climate Action for Urban Sustainability Tool (CURB)	Forecasting Local Extremes (FLEx) Tool	Facility Climate Risk Assessments	Disaster Resilience Scorecard	Climate Resilience Planning and Preservation for Historic and Cultural Resources	Climate Adaptation Pathways Approach
---	--	-----------------------------------	-------------------------------	--	--------------------------------------

IMPACT ASSESSMENT

eDNA Sampling Technology for Ecological Field Studies	Plant Propagation/ Seed Bulking Facilities
---	--

EQUITABLE ENGAGEMENT

EPA Climate Change-related Vulnerability Indicators	Equity-Focused Project-Planning & Prioritization	Sustainable Systems Integration Model (SSIM)	Virtual Stakeholder Engagement	Co-creation with Community-Based Organization	AECOM's Suitability for Action Viable Engagement (SAVE) Model	Working Warriors Workforce Development Platform
---	--	--	--------------------------------	---	---	---

EHS MANAGEMENT

AIM - EHS Management Software	Virtual Reality for Training	Waste Tracker	ehsAI	Virtual Audits	TECH TOOLBOX BUILD BETTER Technology Toolbox
-------------------------------	------------------------------	---------------	-------	----------------	--

EHS DATA MANAGEMENT

EHS(Q) Management Information Systems	EHS Compliance Assurance	Spatial Data Science and Analytics	Digital Data Management
---------------------------------------	--------------------------	------------------------------------	-------------------------

PROCESS & WORKER SAFETY

Automated Management and Staff Notification	Next-Gen Data Capture	Virtual Reality for Training	Unmanned Aerial Systems (UAS) and other Autonomous Technologies	Terrestrial Hand-Held LiDAR Capture	FieldCom
---	-----------------------	------------------------------	---	-------------------------------------	----------

ENERGY

Rosetta	AECOM Energy Analytics	Machine Learning Asset Inspection Management Pilot	ev-readi	Charging as a Service
---------	------------------------	--	----------	-----------------------
