

AECOM’s EHS management practice delivers strategy-focused, cost-effective, and reliable EHS consulting services to clients around the world, such as:

- Integrating EHS management activities into clients’ strategic business planning efforts to capture financial, competitive, and operational benefits
- Supporting EHS compliance assurance processes to achieve reduced regulatory liability
- Presenting opportunities instead of regulatory constraints, and identifying practical, sustainable solutions
- Lowering the impact of EHS costs on the bottom line
- Providing our clients’ top management with the information they need to proactively manage EHS responsibilities and exposures while improving financial performance

Why AECOM?

Regulatory Knowledge/Global Reach

- Global network of offices reduces costs and provides understanding of local requirements
- Active network of regional SHE regulatory specialists
- Detailed knowledge of global SHE legislation
- Founder and organizer of the International Audit Practice Consortium (IAPC®), the leading global organization for promoting excellence in SHE auditing and management

Expert Resources, Superior Performance

- Experienced in ISO 1400/45000, RC14001/RCMS, ISO 50001, and other certifiable management systems
- Monitoring and auditing programs to measure SHE performance including Construction Safety
- Outsourcing capability to work as part of clients' SHE teams or independently
- Flexible service options to fit client needs and budgets
- Information management platforms for data capture, analysis, and reporting

Safety, Health and Industrial Hygiene

Leveraging AECOM's technical disciplines and our corporate safety, health and industrial hygiene experience, we guide our clients in integrating safety and health into corporate strategies, operations, and capital projects. Our unique combination of experience and services positions us to drive the advancement of occupational safety and health from operations, production, and to the boardroom. Our comprehensive services include:

- Qualitative Exposure Assessments
- Risk Management
- Industrial Hygiene Monitoring
- PPE and Respiratory Protection
- Noise and Hearing Conservation
- Indoor Air Quality
- Ventilation
- Ergonomics
- Machine Guarding
- Lockout Tagout
- Confined Space
- Fall Protection
- Bloodborne Pathogens
- Aerosol Transmissible Diseases

Sustainability Services

Leveraging AECOM's technical disciplines and our corporate sustainability planning experience, we guide our clients in integrating sustainability into corporate strategies, operations, and capital projects. Our unique combination of experience and services positions us to drive the advancement of sustainability from the built and natural environment to the boardroom. Our comprehensive services include:

- Enterprise Sustainability Strategy and Planning
- Sustainability Program Development
- Sustainability Reporting and Disclosure (e.g., GRI, CDP, DJSI)
- Materiality Assessment and Corporate Benchmarking
- Environmental, Social, and Governance Due Diligence
- Stakeholder Mapping and Engagement
- Climate Resiliency Planning
- Ecosystem Services / Natural Capital Accounting
- Life Cycle Analysis / Assessment
- Carbon / GHG Management
- Water Management
- Energy Management
- Waste Reduction and Recycling
- Supply Chain Management (Audits, Sustainability Assessments and Compliance)
- Product Stewardship
- EnEHS / Sustainability Management and Information Systems
