digitalAECOM

Environmental Tools

Knowing the state of the natural environment and how to de-risk interaction with it turns must-do compliance into a source of value and opportunity. At Digital AECOM, our digital transformation technologies automate environmental data capture and monitoring, and enrich it with stakeholder-friendly visualization, communication, and planning tools to accelerate asset development and optimize operations.

Please visit our **environmental planning virtual hall**, where we present our industry-leading digital environmental solutions:

- Digital Monitoring and Compliance
- Digital Environmental Impact Assessment
- Risk Management & Optimization
- Natural Capital Accounting
- Large Environmental Programs

2021 EBJ Award for Digital AECOM

AWARD: NEW PRACTICE AREA
CATEGORY: Digital Consulting & Software

AECOM established a brand new, global, digital practice around three pillars: creating world-class software for the digital marketplace; advancing customer-focused, digital consulting/advisory; and ensuring internal digital excellence. At market entry, AECOM released two, environmental and ESG-related applications: PlanEngage™ and SewerLogic™. Because its consulting/advisory applications portfolio has grown so large, AECOM developed a fully interactive, digital exhibition for customers. AECOM is organically building a world class global digital organization driven by multi-year investments.
