

Delivering integrated technical approaches with AECOM's world-class specialists to solve complex EHS & Air solutions:

- ▶ Integrating EHS management and Air Quality activities into clients' strategic business planning efforts to capture financial, competitive, and operational benefits
- ▶ Supporting EHS and Air Quality compliance assurance processes to reduce regulatory liability
- ▶ Presenting opportunities instead of regulatory constraints, and identifying practical, sustainable solutions
- ▶ Providing top management information needed to proactively manage EHS responsibilities and exposures while improving financial performance
- ▶ Strategic support to trade associations/research institutions to affect policy/regulatory changes, performing studies, preparing technical reports, outreach materials
- ▶ Full life-cycle solutions for projects - from design with permitting strategy advice through construction, commissioning and continuing through operational life to maximize operational flexibility and minimize compliance burden
- ▶ Large team of hundreds of air quality professionals with extensive participation in conferences and trade associations as industry experts
- ▶ Development and application of latest air quality modeling software tools/techniques and large inventory of testing/monitoring equipment

<p>Process Engineering, Process Safety Management</p>	<p>Sustainability Program Development, Reporting</p>			

Global Regulatory Knowledge of EHS and Air Quality Legislation

- ▶ Global network of regional EHS and Air Quality regulatory specialists reduces costs, provides understanding of local requirements
- ▶ Experienced in ISO 14001/45001, RC14001/RCMS, ISO 50001, and other certifiable management systems
- ▶ Monitoring and auditing programs to measure EHS performance including Construction Safety
- ▶ Outsourcing capability to work as part of clients' EHS teams or independently
- ▶ Flexible service options to fit client needs and budgets

Managing Merger, Acquisitions & Divestiture

- ▶ Virtual data rooms
- ▶ Phase I/II Assessments
- ▶ EHS/ESG/Supply Chain Due Diligence Assessments
- ▶ Historical information search/review
- ▶ Integration/Divestiture EHS implementation/planning
- ▶ Hybrid approaches

ESG Program Advisory

- ▶ Creating an ESG strategy
- ▶ Improving environmental impact
- ▶ Reaching net zero
- ▶ Strengthening climate change adaptation and resilience
- ▶ Achieving social equity
- ▶ Fleet electrification/Energy Transition
- ▶ ESG Reporting
- ▶ Nature based solutions
- ▶ Indigenous engagement

International Audit Practice Consortium

www.aecom.com/IAPC

A leading program for nearly 25 years that:

- ▶ Enables collaboration amongst 65+ leading global industrial companies
- ▶ Promotes thought leadership in EHS management practices
- ▶ Facilitates peer-to-peer networking and idea exchanges for EHS audit managers/directors
- ▶ Implements unparalleled benchmarking and reports for member companies
- ▶ Facilitates innovative use of technology in EHS audit programs
- ▶ Establishes EHS audit program frameworks
- ▶ Shares best practices with all member companies

Digital EHS Implementation Services

- ▶ Assess existing systems and recommend optimized platform to meet comprehensive ESG and EHS requirements
- ▶ Build business and software requirements based on the gap analysis, reporting, and functional needs
- ▶ Engage leadership and employees to select best fit-for-purpose software applications and tools
- ▶ Implement the integrated platform, reports, and dashboards for insight and decision support as well as specific regulatory requirements
- ▶ Maintain system health and employee engagement with training, change management, and system updates/expansion

AECOM TECHNICAL PRACTICE GROUPS

Environmental Due Diligence	EHS Auditing & Compliance	EnEHS Management Systems	Health & Safety Consulting	Process Engineering	Industrial Hygiene Services
Process Safety Services	Radiological Services	Sustainability Services	Air Quality	Greenhouse Gas & Zero Emissions	

Promoting technical excellence in EHS and Air services we deliver to clients. Our TPGs collectively form a global virtual community of dedicated professionals working together to drive continuous improvement and outstanding client service.

ZERO ACCIDENTS
ZERO ENVIRONMENTAL INCIDENTS
ZERO ETHICAL BREACHES
ZERO DEFECTS
