

Services

AECOM delivers global digital solutions that work for your people, your operations, and your investors. We optimize entire digital platforms to give you the information and insight needed to respond to stakeholders inside and outside your organization.

Responsibilities continue to grow across regulatory compliance, pandemic response, sustainability reporting, and new ESG public disclosure frameworks. How do you meet these demands with limited staff, multiple geographies, and unconnected legacy IT platforms?

AECOM recognizes that your most valuable asset is your people, and digital platforms must work for them, empower them to make decisions, and create a culture of engagement and participation. That's why AECOM's approach to digital EHS and ESG is not software tool-centered, but people and workflow-centered.

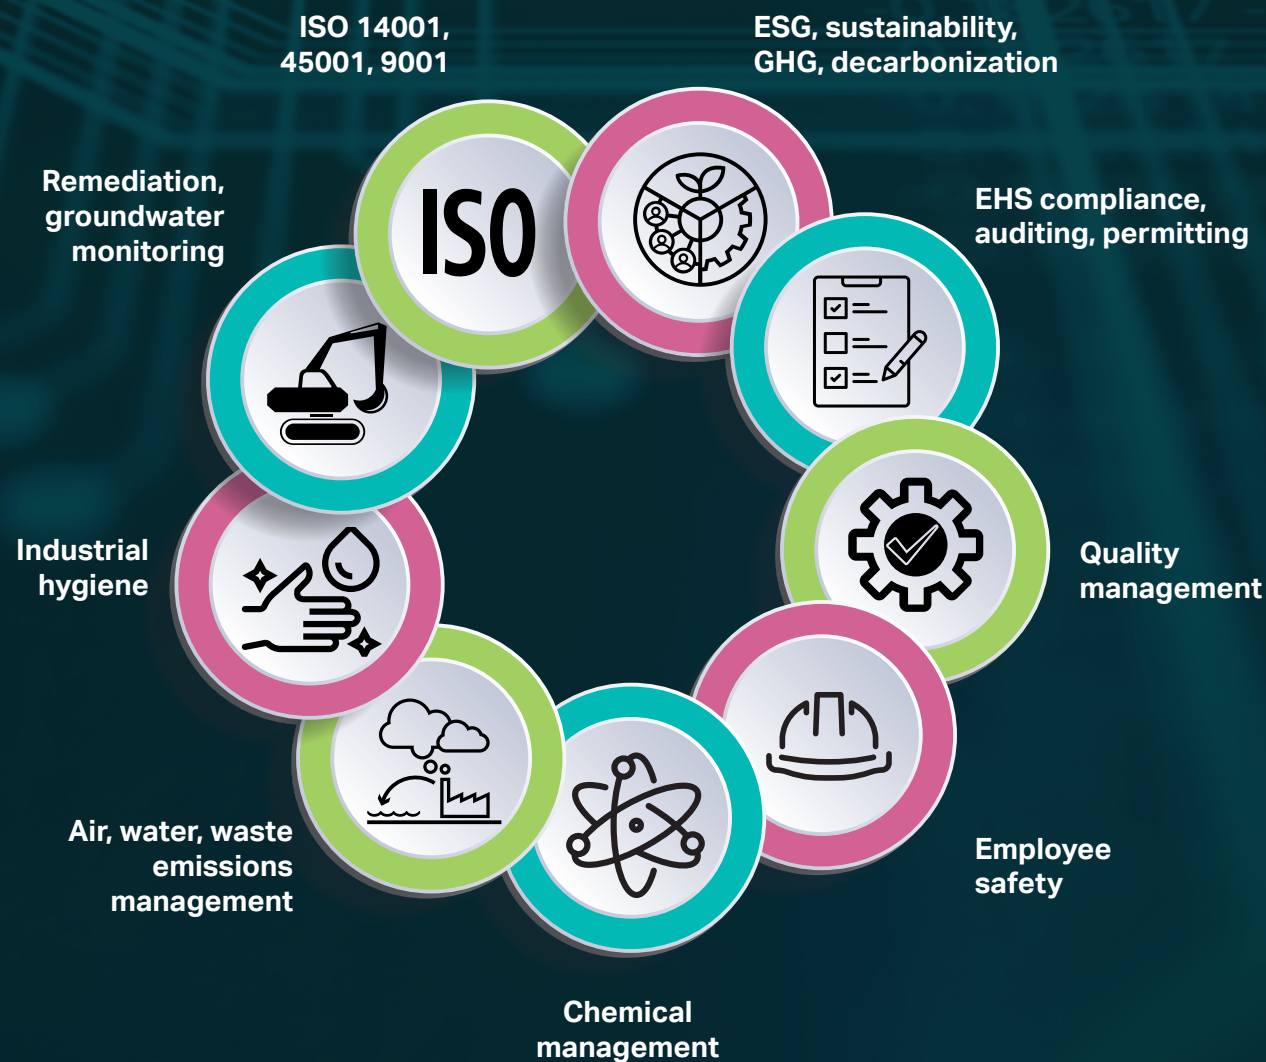

We support you with the following activities:

- ▶ Digital platform review and optimization
- ▶ Business and software requirements definition
- ▶ Digital EHS and ESG gap analysis and report mapping
- ▶ GHG scope 1, 2, 3 management and forecasting
- ▶ Software selection, implementation design
- ▶ Report and dashboard design and build
- ▶ Platform change management, user adoption
- ▶ Global localization
- ▶ Ongoing support and maintenance

Best Practices

At AECOM, we adhere to established digital project practices that lead to success and sustainable systems:

- ▶ Focus on end user experience and adoption
- ▶ Build optimized workflows that leverage multiple integrated platforms
- ▶ Foster continuous learning, training
- ▶ Leverage hosted apps that are built for purpose (best tools for the right job)
- ▶ Assess and mitigate project and deployment risks
- ▶ Advocate on your behalf
- ▶ Tap into AECOM's global EHS and ESG advisory services for end-to-end data collection to stakeholder reporting
- ▶ Global presence to understand context of local regulations and requirements
- ▶ Vast talent pool to deliver comprehensive integrated systems for:

End to End Support for EHS & ESG Data Systems

STRATEGY
Assess existing systems and recommend optimized platform to meet comprehensive ESG and EHS requirements

REQUIREMENTS
Build business and software requirements based on the gap analysis, reporting, and functional needs

EVALUATE & SELECT
Engage leadership and employees to select best fit-for-purpose software applications and tools

DESIGN & BUILD
Implement the integrated platform, reports, and dashboards for insight and decision support as well as specific regulatory requirements

MANAGE CHANGE
Maintain system health and employee engagement with training, change management, and system updates/ expansion

Tools and Resources

- Over 70 MIS Practitioners globally
- Technical Practice Network to share best practices and subject matter
- Innovation Fund and Venture Fund to fuel technology adoption and creative solutions

Technical Practice Groups (TPGs)
Groups that collaborate around practice areas serving external clients

Functional Groups (FGs)
Groups that collaborate around practice areas serving internal clients (AECOM)

Tool Channels (TCs)
Groups that collaborate around software applications

Capability Channels (CCs)
Groups that collaborate around innovative offerings developed to serve our clients

The community through which AECOM technical staff collaborate

About AECOM

AECOM (NYSE: ACM) is the world's trusted infrastructure consulting firm, delivering professional services throughout the project lifecycle – from planning, design and engineering to program and construction management. On projects spanning transportation, buildings, water, new energy, and the environment, our public- and private-sector clients trust us to solve their most complex challenges. Our teams are driven by a common purpose to deliver a better world through our unrivaled technical expertise and innovation, a culture of equity, diversity and inclusion, and a commitment to environmental, social and governance priorities. AECOM is a Fortune 500 firm and its Professional Services business had revenue of \$13.3 billion in fiscal year 2021.
