

# Discover AECOM in Canada

We've successfully served clients across Canada for over 114 years.

## In Canada

AECOM Canada ULC is a proud Canadian business that strongly supports Canadian interests across the country and abroad.

Our legacy in Canada spans over 114 years, driven by an unwavering commitment to shaping the nation's infrastructure and continually adapting to meet Canada's evolving needs. We have 28 offices across the country and employ approximately 3,400 skilled professionals.

We are trusted advisors — planners, designers, engineers, scientists, program managers and construction managers — working across the entire project lifecycle to deliver transportation, buildings, water, environmental and new energy services and solutions. We are one team driven by a common purpose to deliver a better world.

### About us

Our global network of nearly 51,000 employees delivers projects in over 150 countries and is unified by common goals and values — delivering unrivalled expertise, protecting people and the environment, and making the world a better place.

We have also been consistently featured in the *ReNew Canada Top 100 Projects* as a Platinum Elite Player on Canada's biggest infrastructure projects. AECOM is

involved in 40 projects featured in *ReNew Canada's* latest report.

AECOM has proudly been a member of the Canadian Council for Indigenous Business since 2019 and is currently at the Committed Level, striving toward Bronze Level certification.

AECOM remains atop *Engineering News Record's* list of the Top 500 design firms where we are ranked

## Our competitive advantage

- Comprehensive, one-stop service offering
