

Delivering a better world

Infrastructure creates opportunity for everyone

Whether it's improving your commute, keeping the lights on, providing access to clean water or transforming skylines, we believe infrastructure has the power to uplift people and communities.

We are the global infrastructure leader—advisors, planners, designers, engineers, program and construction managers driven by a common purpose to deliver a better world.

On projects spanning water, environment, energy, transportation and buildings, we partner with public- and private-sector clients to create innovative, sustainable and resilient solutions throughout the project lifecycle.

Through our Think and Act Globally strategy, we are setting new standards for excellence in our industry. We continue to invest in our teams' technical and career development, deepen our client relationships, transform the way we work through technology and digital platforms, and deliver sustainable legacies for the communities we serve.

Delivering sustainable legacies

We are leading the change toward a more sustainable and resilient future. Our Sustainable Legacies strategy helps ensure that the work we do in partnership with our clients leaves a positive, lasting impact for communities and our planet.

Accelerating digital transformation

We are transforming how we work to drive faster results, smarter solutions and better outcomes. From pioneering digital design to developing responsible AI solutions, we are adopting new technologies to solve our clients' most complex challenges.

Our TechEx factor

When we connect smart people who love what they do in a collaborative culture that celebrates innovation and impact, we exponentially enhance our capabilities. That's the TechEx Factor we promise our clients. We bring our connected expertise in all that we do for our clients today, while constantly striving for even greater impact tomorrow.

Unrivaled in expertise

Intuit Dome, United States

As lead designer, and in a joint venture as construction manager, we celebrated the opening of the new home of the LA Clippers, which is one of the most sustainable sports centers ever built in the United States.

Jinji Lake, Suzhou

For more than two decades, AECOM has been instrumental in shaping Jinji Lake and its surrounding areas. The team introduced a visionary framework to guide the design of the lake's public spaces and support its transformation over the next 30 years.

San Tin Technopole, Hong Kong

Our joint venture is providing design and digital services for 440-hectares of the San Tin Technopole, a technology and innovation hub in Hong Kong.

Metro Vancouver Water, Canada

We have partnered on several of Metro Vancouver's most complex water projects, including the Stoney Creek Trunk Sewer Upgrade and North Shore Wastewater Treatment Plant, and most recently selected for the Iona Island Wastewater Treatment Plant upgrade.

Sir Run Run Shaw Hospital affiliated with Zhejiang University School of Medicine, Ningbo

In designing Sir Run Run Shaw Hospital's Ningbo campus, AECOM drew on the legacy of the Maritime Silk Road and the elegance of Yue Celadon. Once completed, the hospital will set a new benchmark for integrating healthcare, education, research, and community engagement.

Great Grid Upgrade, United Kingdom

As the UK makes unprecedented investments in its energy infrastructure, we're proud to deliver the UK National Grid's Great Grid Upgrade, a transformative initiative aimed at supporting the UK's energy transition

Yunxi Botanical Garden, Guangzhou

The Yunxi Botanical Garden serves as a critical hub in the Guangzhou urban-park framework, acting as a vital nexus within the city's ecological network. AECOM, in collaboration with local partners, delivered a holistic landscape design that elevates the garden's environmental value and public experience.

M80 Ring Road, Australia

Our transportation experts are designing 14 kilometers of new lanes along Melbourne's M80 Ring Road, helping improve traffic flow, enhance connectivity, and boost economic development.

Zhonghai Daji Alley, Beijing

Zhonghai Daji Alley, once a historic hutong in Beijing, has been transformed into a vibrant urban destination. AECOM's landscape design blends cultural heritage with modern life, creating spaces where tradition and progress coexist.
