

Innovative Environmental Solutions in Our New World

AN AECOM ENVIRONMENTAL WEBINAR SERIES
MAY WEBINARS

Wednesday, May 24, 2023 • 2:00 p.m.* EDT
The Emerging Digital Landscape — A Sea of Change is Coming!

Trends AECOM is seeing to meet the challenges of modern EHS and ESG requirements

AECOM serves many clients supporting increasing needs for digital systems to manage multiple reporting regimes from internal metrics, to regulatory reports, and voluntary disclosures. This presentation shares approaches we are observing clients implement as possible models for your consideration.

From our observations, AECOM is seeing a trend in eroding “brand loyalty” and the mainstreaming of Data Lakes that we believe portends a radical change in Digital management and the selection of software products.

OUR SPEAKERS:
Patrick Hecht and Nigel Watt

PATRICK HECHT. Mr. Hecht is AECOM’s Digital EHS-ESG Practice Senior Advisor/Leader, managing multiple implementation projects. He advises and supports AECOM’s global Digital EHS-ESG Team providing business analysis, evaluation, implementation, and post-deployment operating and maintenance services to clients using commercial Digital EHS-ESG software products.

As a founder of the AECOM Digital EHS-ESG practice in the late 1990’s, he has seen this data management area evolve and grow for the last 25 years. He has experienced both the trends that succeeded, and those that faded, and so he is making some bold predictions on what the future may hold for Digital EHS-ESG data management.

NIGEL WATT. Mr. Watt is AECOM’s EHS Digital Services Delivery Lead responsible for the technical execution of implementations and staff management. In his 11 years of experience in the field, he has seen the “single source of truth” approach erode as user experience becomes paramount. He works from the Lehigh Valley region of Pennsylvania.

Wednesday, May 31, 2023* • 11:30 AM EDT, 4:30 PM UTC+1

How to Tackle Your Scope 3 Emissions to Achieve Net Zero

Join our hosts Robert Spencer, Global Head of ESG Advisory, and Ryan Burrows, Global Sustainability Manager, to discuss:

- The opportunity: reducing Scope 3 emissions is key to achieving net zero
- The approach: putting a plan together to address Scope 3 emissions based on key learnings from AECOM's experience
- The suppliers: how to engage your suppliers and help them onboard with your emissions reduction programme

OUR SPEAKERS:
Robert Spencer and Ryan Burrows

ROBERT SPENCER leads AECOM's ESG Advisory practice with a team of global experts covering the full range of climate change, decarbonization and sustainability services. In 2022, Robert was recognised as the Environment Analyst 'Sustainability Leader of the Year' at their inaugural business awards. He is a member of the Environmental Industries Commission (EIC) Advisory Board and is Vice Chair of the Fédération Internationale Des Ingénieurs-Conseils (FIDIC) Sustainable Development Committee. Robert is also a leading adviser to the Sustainable Markets Initiative – Measurement and Transparency Taskforce, with a focus on Nature, and the founding chair of AECOM's infrastructure best practice collaborations: the Infrastructure Decarbonisation Forum and the Circular Infrastructure Forum, which comprise many of the UK's major infrastructure owner / operators.

RYAN BURROWS is Global Sustainability Manager at AECOM, developing and implementing AECOM's Global ESG Strategy as part of our ESG Global Council. He coordinates technical and operational stakeholders to achieve our targets and report progress to our Executive Leadership and Board. This includes managing AECOM's development and implementation of industry-leading science-based net zero targets. Ryan has also successfully managed the roll out of an updated ESG risk framework for projects across AECOM. Each year he reports progress through our Annual Reporting, which is aligned with TCFD and SASB standards, to our credit facilities, and to clients through CDP.
